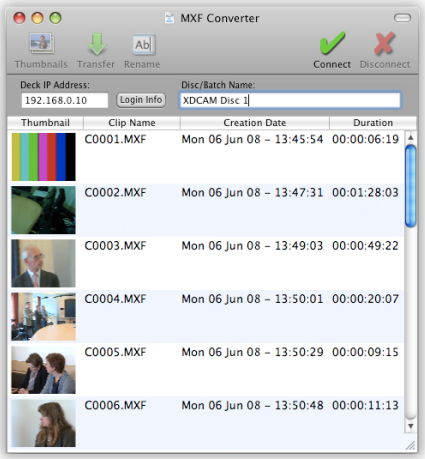
MXF CONVERTER



Cena: $0,00
Kategorie: Broadcast, Ingest TV

OPIS

MXF Converter is an import/conversion tool that can import DVCam or IMX from any Sony XDCAM deck. It directly converts MXF streams into QuickTime movies usable with Final Cut Pro.

- Connects to XDCAM decks via Ethernet
- Converts MXF files to .mov files
- Can connect to multiple XDCAM decks
- Can run on a laptop simultaneously with Final Cut Pro
