The first model of a growing family, the Spirit One headphones are comfortable and lightweight as well as modern and mobile. As these are Focal headphones, they're most of all Hi-Fi headphones with a sleek design offering exceptional acoustic performances.

The result of two years of research, Focal has launched these closed headphones compatible with iPhones/iPods/iPads and smartphones featuring sound quality which meets the same requirements as Focal loudspeakers.

A technological feat ensuring maximum pleasure when listening to your music!
