

AZDEN SMX-20

Designed to work with today's high performance DSLR cameras, the SMX-20 offers directional high quality stereo sound. At less than 5" long the SMX-20 is small in size only. Its wide frequency response, low noise and directional sound is a major step-up from the camera's built in microphone. The SMX-20 comes complete with windscreen, LR-44 battery and shock mount holder with shoe. The attached output cable terminates with a 3.5 mm stereo mini-plug and connects directly into the camera's microphone jack.

Features

- Handcrafted in Japan
- Designed for high performance DSLR cameras
- Directional stereo microphone

- Wide frequency response
- LR-44 battery included
- Up to 150 hours of battery life
- 3.5mm mini-plug stereo output
- Comes with shock mount and windscreen
- 2-Year Warranty

In the box

- SMX-20 Microphone
- Shock mount mic holder
- Foam windscreen
- Manual

Specyfikacja

- Mic Element: Stereo Electret Condenser
- Frequency Response: 100-20,000Hz
- Sensitivity: -40dB @1kHz (1V/Pa)
- Directional Pattern: Stereo Cardioid
- Output Impedance: 1.5k Ohm @ 1kHz
- Signal to Noise Ratio: 60dB (1kHz @ 1Pa)
- Dynamic Range: 66dB
- Max. SPL: 100dB
- Power: LR44 - included alkaline battery
- Battery Life: 150 hours with alkaline battery
- Weight: 72g with battery
- Dimensions: Ø 21mm X 121mm (Ø 0.83" X 4.76")
- Output: 3.5mm stereo mini-plug cable
