

# MXF CONVERTER

**Cena:** 0,00 zł

**Kategorie:** [Broadcast](#), [Ingest TV](#)

## OPIS

MXF Converter is an import/conversion tool that can import DVCam or IMX from any Sony XDCAM deck. It directly converts MXF streams into QuickTime movies usable with Final Cut Pro.

- Connects to XDCAM decks via Ethernet
- Converts MXF files to .mov files
- Can connect to multiple XDCAM decks
- Can run on a laptop simultaneously with Final Cut Pro
