

FIXED KIT (F55, F5)

Fixed Kit (F55, F5) includes a fixed baseplate for the Sony F55/F5 that provides passthrough lightweight 15mm rod support at the correct lens height. The baseplate can attach to any tripod plate or ARRI standard bridgeplate such as Bridgeplate (19mm) or Bridgeplate (15mm Studio). The Kit also includes a Top Plate with arrays of 1/4-20 holes and 3/8-16 holes in standard spacing which is great for mounting EVF mounts, handles, external monitors and more. The Top Handle (Cheese) bolts onto the Top Plate for secure camera carrying, has multiple mounting points for accessories, and has a 19mm rod opening.
