- Also available with Matrox MAX for faster than realtime H.264 encoding
- Three-year hardware warranty and complimentary telephone support

By using Matrox MAX Technology, jobs are finished with amazing speed and system resources are liberated for other tasks. Quality and flexibility are ensured through direct integration with professional applications such as Adobe Media Encoder and Adobe Premiere Pro on the PC.

Key Features of Matrox MAX Technology for PC

- Accelerated encoding of H.264 files for Blu-ray, Apple TV, YouTube, Flash, web formats, and mobile devices including iPhone and iPod from various video sources including SD, HD, and RED R3D 2K and 4K files
- A specialized, dedicated hardware processor liberates system resources for other tasks
- Direct integration with Adobe Media Encoder and Adobe Premiere Pro on the PC to simplify workflow
- Creation of Blu-ray H.264 files that can be authored in Adobe Encore CS4 then burned without re-encoding
