ECHANNEL

Eventide®

WORKHORSE CHANNEL STRIP

EChannel is a powerful audio engineering channel strip that includes a routable gate, a powerful parametric EQ, a versatile compressor and an output transformer simulation. EChannel is optimized for efficiency and delivers legendary Eventide effects on multiple tracks at once, without sacrificing sound quality or taxing your CPU.

OPIS

FlexiPath™

EChannel’s modular design supports flexible signal processing routing making this a perfect tool for tracking and mixing any genre of music. Want your compressor after your EQ? No problem, just drag and drop it in the order that suits your sound.

Sculpt with Precision

EChannel’s graphical displays and its suite of controls give you a near infinite number of ways to dial in the exact tone and frequency characteristics you’re seeking. Side-chaining allows you to use an alternate audio or control source to color your sound.

FEATURES

- Precise tone-shaping and frequency-manipulation.
- FlexiPath™ Routing allows processors to be ordered based on desired workflow.
- Gate module removes signals occurring below the designated threshold; great for multi-miked drum kits or fret noise.
- Compressor alters the dynamics of your input signal, with optional soft saturation to add character and a de-esser to reduce hiss. Use the side chain to trigger gain reduction for competing instruments.
- Five-Band Parametric Equalizer allows for precise frequency manipulation throughout the entire audio spectrum.
- Output Transformer adds subtle yet distinct effect on signals with lots of low frequency content, or can be driven into saturation for analog warmth.

PLATFORM COMPATIBILITY

Windows 7+	**AAX** 32/64-bit, **VST2** 32/64-bit, **VST3** 32/64-bit
macOS 10.7+	**AAX** 64-bit, **AU** 64-bit, **VST2** 64-bit

We test our desktop plugins in Ableton Live, Cubase, FL Studio, Logic Pro, Pro Tools, and Studio One. However, our plugins should work with any compatible host - we recommend you download a 30-day demo here to check before buying.
New 32-bit macOS installers are no longer being made for this product.
