NOWY APOGEE JAM 96K DLA MACA I WINDOWS

Apogee JAM is a USB audio interface that lets you connect a guitar to your iPad®, iPhone®, Mac or Windows 10 PC and record with Apogee’s legendary sound quality. Now guitarists can have a pocket-sized, plug in and play audio interface at an unprecedented price and capture the warmth and richness of their guitar’s tone. Whether you’re at home, on-the-go, or in the most advanced recording studio, JAM makes it easy to capture your best performance right on your iPhone, iPad, Mac or Windows 10 computer. JAM is built for GarageBand and Logic Pro but works great with just about any app you choose.
