ADVANCED AUTOMATIC AUDIO ALIGNMENT

Fast, Automatic Alignment with Advanced Functionality

VocALign Pro 4 is the most advanced version of the legendary VocALign program, providing instant tight alignment of one audio signal to another. Simply capture a Guide signal with the right timing, capture a Dub signal to be aligned, press one button, and a new aligned Dub is generated and returned to your DAW.

Main Features

- Automatically analyzes the energy patterns of two audio signals and edits one to match the timing of the other.
- Includes basic and advanced alignment and editing algorithms.
- Works with voice, musical instruments and sound effects.
- Provides time saving and quality benefits for ADR, tightening double tracked vocals and backing harmonies, foreign language dubbing, etc.
- Simple, intuitive Audio Suite AAX, VST3/ARA and AU plug-in integration for most popular DAWs.
- The Pitch of aligned audio is unchanged.
- Full ARA2 (Audio Random Access) support for an even faster and easier workflow with compatible DAWs.

WHY USE VOCALIGN PRO 4?

Music Editing

- Perfectly-aligned double-tracked vocals and/or instruments
- Tighter and clearer backing vocals
- Shorter overdub sessions
- Easy re-grooving of recorded vocals for remixing

Audio Post-production and Multimedia

- Perfect lip-syncing
- Reduced studio time re-recording dialogue
- More accurate and convincing foreign dialogue replacement
- Tighter Foley and sound effects tracks
