OPIS

Features

Be on Target

Fast and efficient Pan/Tilt/Zoom and Focus control with preset recalls. A large rotation angle range, ultra-smooth PTZ mechanism, and preset positions come together for fast and smooth maneuvering of the camera.

See Clearly

Fully progressive PIVOTCam cameras capture pivotal moments in high quality and high definition, quickly and accurately with high quality optics and the latest CMOS technology.

Effortless Control

No need for additional hardware to control and save presets. Ross DashBoard offers a software approach to control and manage your PIVOTCam.

Endless Options

Still want your hardware buttons and joysticks? We understand! The PIVOTCam can be operated with any USB programmable device. This means that your flight sim joystick can finally be put to good use!

One Connection to Run it all

The PivotCam-SE supports Power-over-Ethernet, while also managing IP control and a 4KUHD stream, all over a single CAT6 or CAT5e cable.

Lock It In

PIVOTCam-SE offers external gen lock control. Saving valuable switcher resources down stream.
