OPIS

Quality

A high-precision rendering engine allows you to apply effects to higher- quality sources (such

as 10bit YUV) without loss in quality.

Hardware Acceleration

FxFactory Pro plug-ins are accelerated using the graphics card for unbeatable previewing and rendering performance.

Masks

Built-in masking tools let you apply effects only to certain regions without the need for a separate compositing step:

Presets

FxFactory Pro plug-ins ship with many built-in presets, a time-saving feature to try new looks with minimal effort.

Save your own presets to disc and recreate the same look later. Presets created in one host can be reused
in all other supported hosts.

Help

Plug-in documentation is accessible in one click, right from the parameter inspector:

Unique Features

FxFactory Pro is the first visual effects package that lets you customize and create your own plug-ins for Final Cut Studio, Final Cut Express and Adobe After Effects without writing a single line of code.

The same powerful tools that allowed us to build FxFactory Pro plug-ins are available to you: create plug-ins that are specific to your projects, share them easily with other users.

One License, Multiple Hosts

A single license to FxFactory Pro unlocks its powerful plug-ins in all supported hosts: Final Cut Pro, Motion, Final Cut Express and Adobe After Effects. free. Others are available in trial mode and may be purchased as needed.
