NUCODA LOOK

An entry level grading solution based on the industry leading Digital Vision image science technology and Nucoda colour tools. It is ideally suited for use as a pre-grade assist station, either in the facility or on-set. When used as a preparation station for the Nucoda grading systemed to ingest or conform video or film content directly onto the timeline ready for editing and pre-processing. It is also an excellent post grade deliverables system.

Cena: $0,00
Kategorie: Video, Korekcja barwna

OPIS
