OPIS

Now up to 350% brighter, the Anova range features the latest ‘game-changing’ LED technology that gives ‘Best in class’ colour rendering with overall CRI > 95 and Skin tone > 98, available in either ‘ULTRAWIDE’ 110º beam angle for beautiful soft lighting, or ‘STANDARD’ 50º beam angle for greater straight line output and punch.

All Rotolight ANOVA’s feature wired DMX control and inbuilt WiFi as standard, allowing wireless remote control of brightness, colour temperature, and system settings via iPhone or

iPad, using the Award Winning Rotolight Magic Eye™ App (available separately from the iTunes Store).
